Yes that's fine, because he presented. He's easy going and accommodating. If you like, you can cc Erica Yelensky as she is the R9 coordinator for Santa Monica Bay NEP. Feel free to loop me in whenever appropriate.

Thanks for doing this.

Vince

Subject: Quick question

Hey Vince,

I am sending individual e-mails to those NEPs that participated in the last OA webinar to get input on what they would like to see in the next webinar. The person who was on the agenda for Santa Monica on the last webinar is their Executive director Tom Ford, and not their science coordinator, so I was going to e-mail Tom directly. Just wanted to make sure that was both appropriate, and see if I need to be more formal in correspondence with him?

Thanks,

Amanda Santoni
